My Vision Strategy

Developing innovations and inventions that will be changing the way we: live in our communities, defend our nations and work in Africa

2

Teaching

Provision of robust, result and learners' oriented education for enhanced teaching and learning.

- a. Training and re-orientation of all stakeholders including but not limited to: lecturers, technologists, technicians and administrators.
- b. Sustainability of ICT driven teaching and lecturing system at SUO.
- c. Proper monitoring and rejuvenation of existing laboratories and teaching infrastructures at SUO.
- d. Introduction of tutorial system, teaching efficiency rating and feedback system and learning materials in English and French Language.
- e. Provision of open, distance and flexible online learning system for enhanced capacity and professional development.

4

Sustainability/Fund Generation

Entrenching the culture of sustainability, research, innovative development and core values of Differentiation, Integration and Summation in all facet of our operations.

- a. Reduction of Operational Expenditure (OPEX) such as: Reduction in Financial Leakages; the use of alternative sources of energy, etc.
- b. Fund generation through: Grants, Alumni, Donor Agencies, Skills Outsourcing, etc.
- c. Adoption of "Products for the industry mantra", commercialisation of research products, and "Ti ti wa ni" approach for market penetration.
- d. Introduction of 21st-century learning paradigms such as: Academic Immersion Programme (AIP), Industry Immersion Programme (IIP), AcadoPreneurship, WastePreneurship, Gender Enrolment Bonus, Scholarship, etc.
- e. Increase in provision of improved Hostel accommodation.
- f. Enabling PPP in the area of Staff Housing Scheme and Retirement Plan Scheme.
- g. Strengthening SUO Advancement Bureau with additional mandate.
- h. Introduction of several welfare package for members of staff and students at SUO.

6

Collaboration

Building bridges across national, regional and international, sectorial, faith-based and industrial Partners/Organizations

- a. Summit University, Offa MoU Analysis.
- b. Introduction of Skillo-Preneurship, Techno-Preneurship, Acado-Preneurship.
- c. Involving alumni and stakeholders who have successfully started companies in our regular teaching programme.
- d. Have a small number of "entrepreneurs in residence" at SUO to be involved in teaching and research in entrepreneurship.

Skills

Training of manpower capable of sustaining and undertaking technological inventions and innovations.

1

- a. Flexibility in curriculum for SUO approved program/degrees with emphasis on running programmes that address national agenda and Sustainable Development Goals (SDG)
- b. The use of committee system in addressing our needs at Summit University, Offa with unceasing SWOT analysis of the systems for sustainable development and actualisation of our mission and vision at the Summit University, Offa.
- c. Introduction of skill acquisition equipment and knowledge development hub for Experiential Service Learning Model.

Internationalisation

Increasing the number of national, regional and international learners enrolment and learners graduating from SUO.

3

- a. Strengthening SUO's international, regional and national profile through branding, marketing and effective social media presence.
- b. Attracting international and national students and lecturers to SUO via the provision of learners centered educational model.
- c. Maintaining and expanding dynamic collaborations, affiliations and linkages nationally and internationally.
- d. Invigorating SUO impacts on economic and social development of the state and the nation at large through the development of Marshal plain for interfacing with MDAs' and the private sectors.

Research

Innovation, Invention and Entrepreneurial Driven Ecosystem

5

- a. Reward System/Motivation for researchers/lecturers and mentoring scheme.
- b. Setting up four research clusters/units and provision of appropriate facilities and trainings.
- c. Research based teaching (as part of problem based teaching) to be enlarged to start up based teaching.
- d. Introduction of Technology Park and Technology/Business incubation Centre.

Key/Legend

Red: Short Term Goals

Black: Long Term Goals

SUO: Summit University, Offa

...towards making Summit University, Offa garden of knowledge, inventions and innovations.
